Job market paper

Climate inequality

This paper documents new evidence that transitory temperature shocks exacerbate within-country income inequality substantially and persistently then considers its implications for the welfare economics of climate change. My empirical approach proceeds by applying time series methods to dataset standardizing comprehensive tax, survey, and national accounts data in order to estimate distributional impulse responses to identified temperature shocks. I then integrate these results with output from the latest generation of global circulation models to simulate the influence of anthropogenic radiative forcings on distributions of income both retrospectively and under a suite of projected emission scenarios. A stylized taxation model embedding a variety of social welfare functions implies a first-order role for compensatory fiscal policy in any optimal response to past and future climate change.

Teaching

Graduate Teaching Fellow at Columbia University (nine semesters, 2020–2024)
Research consultant to all UG/MA economics thesis writers and research assistants
ECON-4999 – Senior honors thesis workshops (design and instruction)
ECON-3412 – Introduction to econometrics (TA)
ECON-3211 – Intermediate microeconomics (TA)
ECON-2257 – The global economy (TA)

Past affiliations

Research associate at Climate Econometrics (2017–2019)
Nuffield College, University of Oxford
supervised by David F. Hendry, Elizabeth Baldwin

Pre-doctoral scholar at Center on Food Security and the Environment (2015–2017)
Dept. of Earth System Science, Stanford University
supervised by Marshall Burke, David Lobell

Honors

Program for Economic Research Summer Fellowship (2024)
Columbia economics department award supporting summer research activities

Wueller Fourth-Year Pre-Dissertation Award (2023)
Columbia economics department runner-up best dissertation proposal

UC Berkeley and Sloan Foundation Diversity Fellowship (2022)

Awarded to five doctoral students in environmental and energy economics

Columbia GSAS Dean's Fellowship and Dissertation Fellowship (2019)
Full-tuition scholarship and living stipend for up to six years of graduate study at Columbia

Oxford M.Phil top-scoring economics thesis (2019)
Department's first 'exceptional' (mark of 80+) thesis in at least four years

Nuffield College–Department of Economics Joint Studentship (2017)
Full-tuition scholarship and living stipend for up to four years of graduate study at Oxford
